

## Nursing Homes – Bennington/Rutland Counties

Nursing homes are facilities licensed by the State of Vermont to provide skilled nursing care, 24-hour supervision, personal care and other services. Before choosing a nursing home, explore other options and resources to see if there are any alternatives. The Senior HelpLine at the Southwestern Vermont Council on Aging can provide information about local home-based and facility resources 1-800-642-5119 or 802-786-5991.

It is important to tour facilities you are interested in, keeping in mind the needs of the individual requiring this level of care. Areas to focus on during your visit include: physical characteristics of the facility, atmosphere, available activities and attitudes of staff. Talk to the staff, residents and family members. When you have narrowed your search to one or two homes, make a second visit, preferably at a different time of day. If something does not seem quite right, ask about it.

Keep in mind that Medicare provides very limited coverage of nursing homes. Eligible people may be able to obtain coverage through Medicaid. To learn about Long Term Care Medicaid, call the Vermont Department for Children & Families - Economic Services Division 1-800-479-6151 or the Southwestern Vermont Council on Aging 1-800-642-5119. Nursing Home administrators should also be able to discuss the subject with you.

Public information regarding facilities is available from the State Division of Licensing and Protection (802-241-2345) or [www.ddas.vermont.gov](http://www.ddas.vermont.gov). While this information can help, remember it is a snapshot view of a facility on a particular day. It may not be reflective of the care currently being provided. Overall, choosing a nursing home is a very personal decision.
